Miss Anna Johnson, of 24 Front street, Columbus, Ohio, says: "I suffered from an aggravated form of constipation and indigestion for several months. My fam-ily physician tried all kinds of medicines ily physician tried all kinds of medicines and pills, but to no effect. I began to think my case was a hopeless one. A friend of mine (Mrs. Elvira Redmond, of East Long street, this city), called, and seeing the condition I was in, recommended me to try your MANALIN. I must say I had but little faith in the medicine, but after I had taken a few doses I was convinced that MANALIN was the medicine for me. After I had taken one bottle I was entirely well of my complaint. I consider it one of the best remedies for constipation I have ever used. I have several friends who are using it. They think it an excellent remedy. I recommend it to all who are afflicted with constipation or indigestion. Any one doubting this statement is invited to call on me at 24 Front street."

Mr. Milton Knotts, Urbana, O., writes:

"Last November one year ago I was taken sick, and called in our family physician. He examined me and said I had symptoms of typhoid fever. He gave me medicine for two weeks or more without any relief. I began to think that my days on earth were fast closing in. I saw at once that his medicine would not reach my disease, Just as I was about to conclude that I would have to die, my daughter brought me one of your pamphlets. I noticed a case whose symptoms were like mine, and Peruna and Mana-Lin had cured him. I concluded at once to try it. I procured one bottle of Penuna and one of Manalin, and took them as directed, and before I had used the two bottles I began to receive strength and gain in flesh. I finished the rest of the two bottles and continued its use until the third bottle receive and two bottles and continued its use until the third bottle was used. When they

the third bottle was used. When they were used I could eat anything I wanted to and go about my work. I consider that if it hadn't been for your Peruna I would have been in my grave. Parties wishing information can write me at the above place. I recommend your medicine wherever I go."

Mr. John R. Davis, Moundsville, W. Va., writes: "I have been handling your Peruna ever since its introduction, All who have used it speak highly of its curative properties. I consider it a reliable remedy."

At no time possibly have matters appeared in more propitious shape for Eastern lines to enter into emigration measures than now, and, as usual, the Baltimore & Ohio takes the initiative. The corporation has among its principal stockholders and officials energetic and far-seeing men who, realizing the importance of the situation, have associated themselves in the organization of an emigration company with other gentlemen of undoubted prominence in business circles, whose success in great commercial under the laws of the State of Maryland, and with a capital stock of one million dollars the "Baltimore & Ohio Emigration Company" will be in a grand position not only to advance its own interests but those of the milroad company and the States through which it runs. The purchasing and the use of first class rams cannot be too highly recommended. An exchange makes these very sensible remarks on the subject: "Many flockmasters make a small income on wool when they might have made a much larger one had they been more particular and liberal in purchasing good rams. The difference in the use of good or poor rams makes wool-growing either a losing or a profitable business; for it takes no more to keep a sheep that will shear seven pomules of wool than one that only shears four pounds, and if it barely pays to grow the four-pound fleece you have three pounds clear profit on the seven-pound fleece." Too many farmers use rams that would not have made good wethers; and besides they use the same ram year after year, never changing until the old ram dies of old age, or some stray dog happens to mercifully relieve the owner of him. Then one of his scalawag lambs is saved to take his place in the breeding season, thus breeding in and in until the flock is bred out. Sheep owners must learn that their flocks cannot stand too close in breeding without deteriorating, and that they must introduce new and non-related blood from time to time.
